Intensive Training Diploma (ITI) |
I took a Fullstack course with IT Institute, and it was a very useful experience. I acquired valuable skills in software development.

2023/07 – 2023/09

Summer training |
Attended summer training in Faculty of computer science indigence in Luxor university ,frontend Training

Organizations

I was a member of IEEE from 2021 to 2022, and I served as an HR member in IEEE LUB branch. ☑

Icpc Luxor Univercity, Trainee ☑

Courses

I completed a Front-End course with ITI, where I learned essential skills in web development.

The Complete Guide to .NET Core Web API – Udemy

I completed a Full Stack course with Coursera, gaining advanced knowledge in both front-end and back-end development.

I completed a Networking course with CompTIA Security+, enhancing my understanding of network security and data protection

Projects

My_Profile [↗](#)

My_Profile is a showcase of my personal information, projects, and CV, highlighting my skills and experience

fananiss [↗](#)

Developed a Ramadan-themed website integrating religious questions, prayers, and supplications; utilized HTML, CSS, JS, PHP, and MySQL to engage users and increase session duration by 40% during Ramadan

Coursk [↗](#)

Developed "Coursk," a course-based website where teachers upload courses, students study the courses, and an admin approves or rejects the courses submitted by the teachers. This project was created in collaboration with a team using HTML, CSS, JS, PHP, and MySQL.

pharaohsvault [↗](#)

I've created an Egyptian-themed website reflecting Egypt's history,

featuring an online store for Pharaonic products, built using HTML, CSS, JS, PHP, and MySQL

Weather_Web [↗](#)

Website display today's temperature and forecast the next two days . I Used API From <https://Weatherapi.com>

Technical Skills

Programming Concepts

- o Object-Oriented Programming (OOP)
- o Data Structures
- o Database (SQL Server)
- o Algorithms Analysis And Design

Back-End Technologies

- o ASP.Net Core Web API

Programming Languages

- o C++, C#, C, Python, JavaScript

Front-End Technologies

- o HTML, CSS, JavaScript, Angular, Bootstra

Version Control

- o Git/GitHub

Operating System

- o Windows
- o Linux

Soft Skills

-Problem Solving

-Management skills

-leadership

-Critical thinking

- Communication skills

-Flexibility

-Project Management

-Time management

-Teamwork

Certificates

- My_Certificates [↗](#)

Languages

• Arabic (native)

• English (Very good)

• French(beginner)
